INVENTORY MANAGEMENT SYSTEM

Multi-platform Inventory Synchronization... Made Easy!

SYNCHRONIZE INVENTORY ACROSS MULTIPLE PLATFORMS

Custom tailored for Amazon, eBay and a generic output (suitable for use by any other platform). Can easily be configured for any other.

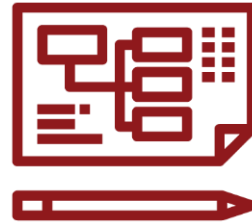

A SYSTEM, NOT A SINGLE APP

The Inventory Management System consists of the Point of Sale, Inventory Management & System Administration applications and many external data feeds.

EXTENDABLE TO ANY PLATFORM

Adaptations can be made for any marketplace platform offering a truly custom solution!

BASED ON INDUSTRIAL STRENGTH OF MICROSOFT SQL SERVER

You can relax knowing your data is securely handled by one of the most advanced database systems in the world: Microsoft SQL Server.

UNLIMITED LICENSE

Installation available on any Windows 10 PC computer worldwide without restriction – no per-seat licensing, no limit on concurrent users, no sales volume penalties.

COST COMPARISON

Simply, our price is $5400.00 for the customized software and $39.00 per month maintenance. Look at the cost when compared to other solutions over a three-year period. Universally, LeeHamilton.com is the most cost effective. See what you can save!

LIFE SIMPLIFIED - PASSWORDS ELIMINATED

The Inventory Management System leverages Windows security and EMBEDDED SECURITY CODES to eliminate the burden of additional user login/password management.

SOLID FOUNDATION FOR YOUR BUSINESS

Future proof your business by TAKING CONTROL of your data. No on knows what turns the electronic medium might take – when you control you own data you can quickly respond to changing business landscape.

DOESN'T REQUIRE CHANGE TO CURRENT PROCESS

Most big online ERP systems require you to use their accounting, their shipping, their inventory, their CRM and their Point of Sale. Why? You already have that – all you need is to save money by getting control over your inventory.

NO TRAINING REQUIRED

This system is an INTUATIVE stand-alone system – no costly learning process required. Employees can be up and running in minutes with simple instructions. Keep using your present software and AVOID having to re-train your staff, saving even more money!

SIMPLE INSTALLATION

Can be installed on any Windows 10 compatible computer worldwide. Just download your custom apps, import your listings and start saving money!

Who is Lee Hamilton?

Lee Hamilton a software developer who has consulted to the biggest companies in the world.
